ABOUT ME

I am a web applications developer experienced with JavaScript

My knowledge includes front-end and back-end, as well as MySQL database structures.

I recently became an AWS certified cloud practitioner by and am in the process of obtaining the AWS Solutions Architect certification as well.

I have experience with GitLab CI/CD, Terraform and Docker.

My current goal is to further improve my knowledge of the cloud, so that I may be able to transition my career into a DevOps Engineer.

I am additionally quite experienced as a technical support, which has given me the opportunity to work with many products and applications.
